CONTENTS OF VOLUME 38

Number 1

rd flowers in the eastern United States — *Daniel F. Austin* — 1
istribution of the river birch, *Betula nigra*, in the United States — *James L. Koevenig* — 13
eeding habits of the white catfish from a Georgia estuary — *Richard W. Heard* — 20
agusia depressa from the northeastern Gulf of Mexico — *Keitz Haburay* — 28
new subspecies of *Anolis baleatus* Cope (Sauria: Iguanidae) from the Republica Dominicana — *Albert Schwartz* — 30
n unusual habitat for the fish *Rivulus marmoratus* — *Fredrick W. Brockmann* — 35
oloration changes in sub-adult largemouth bass exposed to light and dark background — *E. J. Moyer and R. L. Wilbur* — 37
ology texts utilized in Florida secondary schools — *Barbara Ann Whittier* — 40
me English comments on the Treaty of Versailles and the United States Senate — *George Osborn* — 46
easurer's note — 64

Number 2

stribution of the boring isopod *Sphaeroma terebrans* in Florida — *David O. Conover and George K. Reid* — 65
e status of prehistoric sites in Pinellas County, Florida — *J. Raymond Williams* — 73
il algae from North Central Florida — *J. R. Norton and J. S. Davis* — 77
ring of soft phosphate yields a oloated product — *Frank N. Blanchard* — 82
oreliminary list of Fijian mosses — *Henry O. Whittier* — 85
rotenoids in color change of *Pomacentrus variabilis* — *Hal A. Beecher* — 106
e history patterns in the coastal shiner, *Notropis petersoni*, Fowler — *Bruce C. Cowell and Clippert H. Resico, Jr.* — 113
currence and possible establishment of *Hoplias malabaricus* (Characoidei; Erythrinidae) in Florida — *Dannie A. Hensley and Derril P. Moody* — 122

NUMBER 3

Temporal patterns of resource allocation and life history phenomena — *Mercedes S. Foster* 129
The southern distribution of the many-lined salamander, *Stereochilus marginatus* — *Stephen P. Christman and Howard L. Kochman* 140
First records of two percid fishes in Florida freshwaters — *Ralph W. Yerger and Hal A. Beecher* 142
The Florida spiny lobster fishery—A white paper — *Gary L. Beardsley, T. J. Costello, Gary E. Davis, Albert C. Jones and David C. Simmons* 144
Benthic algae of the Anclote Estuary I. Epiphytes of seagrass leaves — *David Ballantine and Harold J. Humm* 150
Elemental analysis of selected Merritt Island plants — *David H. Vickers, Roseann S. White and I. Jack Stout* 163
Range extensions for, and an abnormality in, Scorpaenid fishes collected off the Carolinas — *William D. Anderson, Jr., James F. McKinney and William A. Roumillat* 171
Notes on the introduced gecko *Hemidactylus garnoti* in South Florida — *Robert Voss* 174
Key to the mosses of Puerto Rico — *Harvey A. Miller and Keith W. Russell* 175
Invasion of a renovated pond by walking catfish, *Clarius batrachus* (Linnaeus), and other species — *Lothian A. Ager* 183

NUMBER 4

ACADEMY SYMPOSIUM: LAND SPREADING OF SECONDARY EFFLUENT
Introduction — *Rudy J. Wodzinski* 19
Chemical, physical and biological composition of "typical" secondary effluents — *Rudy J. Wodzinski* 19
Virus consideration in land disposal of sewage effluents and sludge — *F. M. Wellings, A. L. Lewis, C. W. Mountain and L. M. Stark* 20
An overview—wastewater treatment disposal systems utilizing land application — *Russell L. Wright* 20
Effluent irrigation as a physicochemical hydrodynamic problem — *Allen R. Overman* 21
Land-spreading of secondary effluents — *G. J. Thabaraj* 22
Report to the Academy — *Peter P. Baljet* 22
Reviewers for 1975 23
Citation for Alex S. Green 23
Formulation of the energy equation in fluid dynamics — *Pieter S. Dubbelday* 23
